Hello! I'm Yuka. I like to create beautiful web applications with a strong focus on design and interactivity. I'm excited to continue learning and solving complex problems with creativity. I have a background in business development, and a love for hustle, innovation, and willingness to take risks.

Front-end: HTML5 / CSS (SASS) / Javascript (jQuery) / React / SVG / Sketch.io / D3

Back-end: Ruby/Rails / Node.js (Express) / API integrations / PostgreSQL / MongoDB / Sinatra / Jasmine

General Assembly

Web Development Immersive, NYC

Aug 2015 - Nov 2015

CITY/SOUNDS.io

- CITY/SOUNDS is a location-based playlist generator that creates playlists out of artists from a city. Each city's real-time weather condition is animated using CSS3.
- Built using React/Node.js, and integrated with Spotify's Web API, Echo Nest's API, and OpenWeather API.

[AUDIEM](#)

- Audiem is a visual music streaming app that marries an audio and visual experience.
- As one of two developers, Audiem won runner-up at a 24 hour GA hackathon.
- Technology stack: React, JavaScript, Node.js, and integrated with Spotify and Instagram's APIs.

[Code + Design \(Wiki\)](#)

- Code + Design is a Wiki-style Rails app where users can share, post, edit, and search articles on code/design.
- The front-end is hand coded, and I used PostgreSQL relational database to save users, hashtags, and articles.
- To sign in - *username: guest / password: guest*.

Workable

Business Development Manager, NYC

Jul 2014 - Aug 2015

- Joined a Greek HR startup that was in the midst of launching their US expansion. I was responsible for kicking off their first US office in NYC, which ended up being just me as the team relocated to Boston.
- Remotely managed Workable's field sales and growth through event planning, sales, and customer support.
- Launched and drove [Talent Hackers](#) in NY, Boston, and PA - a community-driven event series for hiring managers and recruiters. We had panelists and sponsors from Stack Exchange, HubSpot, Etsy, WeWork, and more.

UK Trade & Investment

Business Development Associate, NYC

Mar 2012 - Jun 2014

- Supported 10+ US tech businesses to expand their offices to the UK every year - surpassing annual goal of 8.
- Played a key role in growing UKTI's relationships with NYC's tech community through lead generation and event planning (a few which have involved the Prime Minister/Prince Harry, SXSW, Internet Week, trade missions for UK companies, and launching the first [GREAT Tech Awards](#)).

Emerson College

B.S. Marketing Communications, Boston

Sept 2009 - May 2011
