LinkedIn/Twitter: @yukanagai

Hello! I'm Yuka. I like to create lovely web applications with a strong focus on design and interactivity. I'm excited to continue learning and solving complex problems with creativity. I used to be in business development, but haven't looked back since I made the career change.

Front-end: HTML5 / CSS (SASS) / Javascript (jQuery) / React / SVG / Sketch.io / D3
Back-end: Ruby/Rails / Node.js (Express) / API integrations / PostgreSQL / MongoDB / Sinatra / Jasmine

---

General Assembly   **Aug 2015 - Nov 2015**
Web Development Immersive, NYC

CITY/SOUNDS.io

- CITY/SOUNDS is a location-based playlist generator that creates playlists out of artists from a city. Each city's real-time weather condition in also animated using CSS3.
- Built using React/Node.js, and integrated with Spotify's Web API, Echo Nest's API, and OpenWeather API.

Catcademy: Outcomes Tracker

- The Outcomes Tracker helps teachers/graduates track employment-success rates using charts, graphs, and surveys.
- I was responsible for the front-end design and development, including creating the color scheme, designing the logo, and implementing responsive design and animation using HTML, CSS/SASS, and jQuery.
- The rest of the app is developed using React, Ruby on Rails, React, JavaScript, Chart.js, and ActionMailer.

AUDIEM

- Audiem is a visual music streaming app that creates a content through hashtags, built using React, Node.js, and Instagram and Spotify's APIs.
- As one of two developers, Audiem won runner-up at a 24 hour GA hackathon.

Workable   **Jul 2014 - Aug 2015**
Business Development Manager, NYC

I joined a Greek startup to kick off their first US office in NYC (which ended up relocating to Boston). I increased sales and increased awareness through organizing events with the local tech/SME/HR community.

UK Trade & Investment   **Mar 2012 - Jun 2014**

Business Development Associate, NYC

I won the UK 7+ US tech businesses to expand their offices to the UK every year - including high growth companies like Kickstarter, Percolate, and Shutterstock. I also played a key role in growing UKTI's relationships with New York's tech community through event planning, networking, and outreach.

Emerson College   **Sept 2009 - May 2011**

B.S. Marketing Communications, Boston
